

## WINTER NEWSLETTER

Dear Customer,

As always we would like to thank you all for your continued support and custom. This has enabled us as a company to grow over the past few months. We have continued to build our stocks and as a result have good stock levels of all our standard sizes. This allows us to keep our promise of offering a fast and flexible delivery service. We have also added some new products / sizes to our range, we see this as an ongoing process and will keep you updated of any developments. Our current products availability can be downloaded from our website.

The constant fluctuating steel markets means that we have to be aware of what is happening in the market. The good relationships we have established with our suppliers has enabled us to keep informed, buy right and therefore maximise our stock availability. Ultimately correct purchasing deals are vital and as our purchasing power has increased, it means we are able to offer to our customers both competitive prices and quality products. It is reassuring to hear that in this economic climate, some of the steel we supply has found its way into

large projects that include well known high street stores, supermarkets, airports and ongoing developments in and around this area.

We have also updated our website [www.tamevalleysteelstock.co.uk](http://www.tamevalleysteelstock.co.uk) to include a bit more information about our company, and we have also attached a few useful downloads. If you have 5 minutes to spare, please download our Christmas quiz sheet and fax/email back to be in with a chance of winning a TVS Christmas Hamper. Entries to be submitted by 10<sup>th</sup> December.

On a final note we would like to wish all our customers a Happy Christmas and a successful and prosperous New Year.

Cheers Rachel, Liz & Mark
